

X-DC350M2R (Improved-Version)

I have some more exciting news! This time it's the new Studio Master AC Power cord that has just arrived, and I could not wait to get it out of the box and Installed in my system for testing. Here is my report about what I experienced.

The X-DC350M2R is simply your final AC Power cord.

It's extremely effective and delivers the Ultimate improvements in detail and dynamics, while adding fabulous musicality. After installing the new Power cord the Initial results were, simply stunning, the music delivery became subtle, open and natural. It stabilizes the entire frequency spectrum and makes the entire listening experience more lifelike and rewarding.

The X-DC350M2R brings the system to life with ease; it's natural airy presence is breathtaking; It's like your system has no cable connections; pure, free and total Music Balance.

I have had the pleasure of listening to many good Power cables over the years, but the X-DC350M2R has raised the music quality bar to its highest point. Once you start to listen to this Power cord you will agree and crave for nothing else.

This new AC Power cord has reached a quality level unmatched by any other Power cables currently available at any price. This is the true Standard Power Cord and should be owned by every true Music Lover.

Thank you Mr. Kiuchi for making a cable the way it should be made.

Highly recommend!!!

Best regards,
